LARGE-FORMAT PORCELAIN

The 48 × 48 Collection

FROM THE GROUND UP.

Eight surfaces. One commanding format.

At forty-eight inches square, porcelain stops behaving like tile and starts behaving like architecture. Grout lines nearly disappear and rooms read as one continuous plane. The collection moves across three material moods — poured concrete, warm sedimentary stone in veincut and crosscut faces, and softly textured cement tones — every piece rectified for tight, monolithic installation across floors and walls.

Off White Concrete	CONCRETE LOOK	Matte · Polished · Anti-Slip
Concrete Grey	CONCRETE LOOK	Matte · Polished · Anti-Slip
Veincut Moka	STONE LOOK	Matte
Veincut Bone	STONE LOOK	Matte
Crosscut Moka	STONE LOOK	Matte
Crosscut Bone	STONE LOOK	Matte
Beige	CEMENT LOOK	Matte
Gris	CEMENT LOOK	Matte

R — Rectified edge

Matte — Natural, honed surface

Polished — High-gloss reflective surface

Anti-Slip — Enhanced-grip surface for wet & exterior areas

The Collection

PORCELAIN · 48 × 48 · RECTIFIED

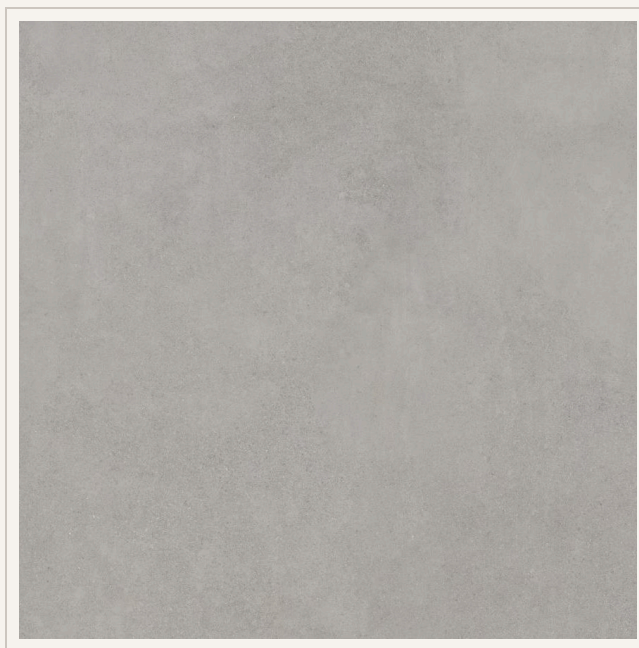

The concrete faces carry the look of poured, board-formed cement without its weight, sealing, or upkeep, with subtle tonal drift that keeps large expanses from reading flat. The veincut stones run linear striations across the face for quiet, directional movement.

PORCELAIN · 48 × 48 · RECTIFIED

The crosscut stones open the face to reveal a fossil-flecked, coral-and-limestone character with warm mineral depth. The cement tones close the range with a faint texture and a calm, neutral base that integrates without imposing — precisely what a floor this size should do.

Gris	Cement	48"×48" R	Matte	9 mm

All 48" × 48" field tiles are rectified porcelain suitable for floor and wall installation. Stone-look matte surfaces carry a wet dynamic coefficient of friction (DCOF) of ≥ 0.42 ; anti-slip concrete finishes are rated for wet and exterior areas. Tile is a natural-look product with intentional shade and pattern variation — final selection should be confirmed from physical samples in our showroom. Availability subject to change.
